Dear sponser,

How are you now days and how is your family. For me here I am alright. I thank you for the great support you have been giving me since I started primary and now in secondary I joined senior secondary this year and

I take 13 subjects, I like mathematics most, At school we have morning and evening preps where we have time to read our books. I will read books in order to pass well and achieve my goal and I promise to study much harder nex term than last term. Last term I did well mathematics, Luganda and English.

At school we do different activities e.g tailoring, building and I take tailoring. In the holiday I live with my uncle and help him with diqqing in the garden.

I thank you for supporting me may God bless you and reward you every thing you want

I remain your loving student
Namugumya Margaret.
